People for Parks to Unveil Playground Project Design

Bedford, PA – With the vision “Imagined by Kids—Built by Community,” plans continue for an age-appropriate playground in Bedford, thanks to the dedicated work of People for Parks.

The volunteer group invites the public to a “Meet the Designers Night” for the new facility, **Tuesday May 24th from 6:30-8:00 p.m. at Bedford Elementary School.** Guests will have the opportunity to witness the unveiling of the new playground design by Leathers and Associates. The firm will meet with school children throughout the day to gather ideas and suggestions from the young people expected to benefit from the project. Those who attend will enjoy kids’ activities, refreshments and entertainment—FREE!

The playground project, to be constructed at The Green in Bedford is sponsored by Bedford County Endowments, Susan and Mark Thomas, The Chancellor House and Bob Webb Photography, and supported by countless volunteer hours by the concerned citizens of People for Parks.

Picket Sales to Begin: Community supporters will soon be able to contribute to the park in a lasting, noticeable way. Pickets will be sold for \$35 each to be placed at the park. Each picket will feature the name(s) of the contributors (20 characters, spaces, punctuation per picket). Details will be available soon.

For more information, call Shelly Hays using the information above or check out the project on Facebook by searching keyword: **Bedford People for Parks.**
