Women United of Bedford County (Women United) is a newly formed organization whose mission is to empower others to empower themselves by utilizing community resources and local networking opportunities. This organization was developed by a group of women passionate about assisting individuals and/or families to overcome their challenges.

Almost fourteen percent of our community and neighbors live below the poverty level and lack the financial resources and support to help themselves and their families succeed. For example, individuals may have employment opportunities but lack the financial resources to purchase the necessities for their work. Women United has provided these necessities, such as pants, non-slip shoes, and socks.

With your help, Women United can continue this effort, as well as expand our ability, to assist individuals and families with the costs associated with employment, school, or community activities that they are unable to afford. Additionally, Women United will connect individuals and families with the community resources that will enable them to succeed and improve their lives.

**Thank you for your interest in helping Women United strengthen & empower individuals and families in Bedford County.**

**For more information please contact The United Way: (814)624-0041.**

**WOMEN IN BUSINESS SPRING CONFERENCE:**

We'll be collecting clothing for Women United during the 2022 conferences. Those who bring gently-worn professional clothing and/or items for the mixer basket raffle will receive extra tickets (chances) for the raffle. Thank you in advance for your support!
