DETAILS: This new membership quarterly meeting series will include 2 breakfast events and 2 lunch events, beginning with lunch on Monday, January 24th at noon at the Bedford Elks Country Club.

Each event will begin with a casual networking meal, catered by Chamber member businesses, followed by a program to include recognition of sponsors and new Chamber members, and a featured presentation to provide valuable information to the attendees. The January program will include a quick look back at 2021 Chamber & Foundation activities and a look ahead to some key opportunities on the horizon in 2022. Future programs will include discussions about workforce challenges in Bedford County; Diversity/Inclusion/Equity initiatives, and other important topics for our business community.

Sponsors will have the opportunity to have a table exhibit as well as to distribute materials to each guest in attendance. If you have additional suggestions for ways these events can support your business, call us! We're always looking for new ideas with ways to provide additional opportunities for our members!
